The purpose of this course is to introduce principles of law and ethics in pharmacy with a focus on those laws and ethical situations that are most commonly encountered in a community pharmacy practice setting. The course will examine the federal and Florida state laws that impact the practice of pharmacy, while emphasizing the legal and ethical principles applied by pharmacists in their daily decision-making. Students will learn the governmental framework within which pharmacy is practiced, as well as acquire an understanding of the laws, regulations, and the ethical responsibilities applicable to pharmacists so that they will be able to protect the public, ensure patients' well-being, and protect patients' rights.

Entrustable Professional Activities
This course will prepare you to perform the following activities which the public entrusts a Pharmacist to perform:
1. EPA A3. Safely and accurately dispense medications within a medication use system including supervision of pharmacy technicians.

Course-Level Objectives
Upon completion of this course, the student will be able to:
1. Explain what a prescription is and the obligations of pharmacy personnel in processing prescriptions.
2. Explain the dispensing requirements for prescriptions, including those involving generic substitution.
a. Understand pharmacists’ responsibilities with regard to prescriptions presented to pharmacies in each of the following formats: electronic prescriptions (i.e. e-prescribing) faxed prescriptions, hand-written prescriptions, computer-generated prescriptions, and phoned-in prescriptions.

3. Discuss how laws and the legal system function in the United States.

4. Explain the activities that must be completed by a licensed pharmacist, those activities that may be performed by a pharmacy intern, and the activities that may be performed by a pharmacy technician (NOTE: interns & technicians are under the direct supervision of a pharmacist).

7. Explain the information required on a prescription label, and distinguish label from labeling.

8. Explain what is required of pharmacists when ordering controlled substances and when dispensing, refilling, and transferring prescriptions for controlled substances, according to the federal Controlled Substances Act.
   a. Describe controlled substances ordering, inventory control, dispensing and destruction.
   b. Distinguish CSOS from DEA Form 222.
   c. Identify that prescription pads must be purchased from approved vendors.

9. Describe the composition of the Florida board of pharmacy, and its function in regulating the profession of pharmacy.

10. Identify the various classifications of pharmacy permittees in the state of Florida, and the activities that may be performed in these different pharmacies.
    a. Understand what pharmacy permits are required for entities to sell, purchase and dispense (including reverse distributors)

11. Apply ethical principles in case studies involving a community pharmacy setting.

Course Pre-requisites

1. Successful completion of Block 1, 2, and 3 courses.

Course Co-requisites

1. There are no co-requisites for this course.

### Required Textbooks/Readings

   - Not available via HSC Library
   - Assigned pages in the course schedule above are for the hardcopy version of the textbook. Students may buy an e-copy of the textbook, but the faculty does not possess an e-copy of the textbook, so we cannot post the correct page numbers. We will post the correct topics for each assignment on the course webpage, so that students with an e-book can determine what the assignments are for their version of the textbook.

2. All other required readings will be posted in Canvas.

Use [UF VPN to access UF Libraries Resources](http://www.library.health.ufl.edu/) when off-campus. The UF HSC library staff can assist you with questions or issues related to accessing online library materials. For assistance contact your College of Pharmacy librarian or visit the [HSC Library Website](http://www.library.health.ufl.edu/).

### Suggested Textbooks/Readings

### Student Evaluation & Grading

Evaluation Methods and How Grades are calculated.
Assessment Item | Grade Percentage
--- | ---
iRATs [4] – single lowest score dropped | 25%
tRATs [4] | 25%
Class Participation and Professionalism | 10%
Final Exam | 40%
Total | 100%

Table 1. Grading Scale

Rounding of grades:
Final grades in Canvas will be rounded to the 2nd decimal place. If the decimal is X.495 or higher, Canvas will round the grade to X.50. The scale depicts this policy and grades are determined accordingly. Grade assignment is made using this policy and NO EXCEPTIONS will be made in situations where a student’s grade is “close.”

Educational Technology Use
The following technology below will be used during the course and the student must have the appropriate technology and software.
1. ExamSoft™ Testing Platform
2. Canvas™ Learning Management System
